District Leadership

Board of Education

Mrs. Tracey Kiff-Judson, Chair
Mr. Michael J. Purcaro, Vice-Chair
Mr. Gary Blanchette
Mrs. Jennifer Dzen
Dr. Jaime Foster

Mrs. Marcia Kupferschmid
Mrs. Elizabeth Nord
Mrs. Kerry Socha
Mrs. Kristen Picard-Wambolt
Dr. Michael Young

District Administration

Dr. Scott Nicol – Superintendent of Schools
Mr. Brian Hendrickson – Assistant Superintendent for Curriculum and Instruction
Dr. Kristy LaPorte - Director of Special Services
Mr. Brian Greenleaf – Director of Finance and Operations
Mr. John Collins – Director of Technology
Mrs. Michelle Murray – Curriculum Supervisor – Language Arts, Social Studies & World Languages
Mrs. Elizabeth Cole – Curriculum Supervisor – Science, Technology & Math
Mrs. Melissa Haberern – Special Education Supervisor
Ms. Sara Spak – Special Education Supervisor
Ms. Rebecca Gonzalez – Director of Facilities

School Administration

Ellington High School

Mr. John Guidry – Principal
Ms. Rebecca Aldred – Assistant Principal
Mr. Michael Nash – Assistant Principal

Ellington Middle School

Mr. David Pearson – Principal
Mr. Michael Nash – Assistant Principal

Center School

Mrs. Trudie Luck Roberts – Principal

Windermere School

Mr. David Welch – Principal
Ms. Jennifer Kinne – Assistant Principal

Crystal Lake School

Dr. Susan Nash-Ditzel - Principal

Organizational Philosophy

Vision:

Ellington Public Schools grows exceptional learners and leaders who are courageous, reflective, and contributing citizens of the world.

Mission:

Ellington Public Schools creates a culture of learning that challenges and inspires all students on their personalized educational journeys.

Our Core Values and Beliefs are:

We empower students and staff with the skills to discover and pursue their own passions and to embrace opportunities to be courageous, reflective, and contributing citizens of the world.

We create an equitable, inclusive and supportive culture where people are safe, accepted, and valued.

We value learning as an enlightening, lifelong process that happens in multiple ways.

We believe that positive relationships among all stakeholders create synergy and are the foundation for our learning community.

We celebrate innovation, collaboration, creativity and multiple forms of success.

We ensure that our learning environments are flexible spaces that encourage interaction, co-creation and independence.

We have an unrelenting commitment to the belief that everyone can continually learn and grow.

In support of our mission and in alignment with our core values and beliefs, our **District Areas of Focus** are:

Equity

Innovation

Efficient Operations

Superintendent's Budget Message

The Town of Ellington is growing, as is its school system.

In August 2017, the Connecticut State Data Center projects that Ellington's population will increase from approximately 16,000 residents in 2017 to 22,000 residents in 2040.

This trend is not new. From 2007–2017, Ellington is the only school district of the eight surrounding towns to increase its student population. A recent report from the New England School Development Council (NESDEC) projects a rise from the current student enrollment of approximately 2700 to 2900 in 2027. Similarly, Educational Resources Management's demographic study and analysis projects an enrollment increase of 500 or approximately 3200 students by 2027.

This projected student enrollment, coupled with a per pupil spending that ranks in the bottom 10% of districts is widening the *growth and investment gap* and challenging the future sustainability of quality education provided by the Ellington Public Schools.

The Ellington Public Schools are strategically adapting to this challenge. Over the past few years, we have been through a process to envision what education in Ellington will look like 5 to 10 years down the road. With this vision taking shape, we are aligning the pieces of the puzzle to make this vision a reality.

Our efforts to find cost neutral ways to improve the school district by making our **operations efficient** have improved the delivery of service. In this budget, our focus puts forward shifting resources in order to further develop **emotional and social connections** between students, staff, and families to enhance the **safety and security** of our schools.

In shifting resources to meet increasing student need, the district generated additional revenue and savings by strategically adding programs. Over the past three years, the district significantly increased the revenue collected, approximately 250% more in 2018-2019 over 2015-2016 totals. This increase is used to provide required services to Ellington students, while offsetting yearly budget increases.

This budget is supported by approximately \$1.9 million in revenue to offset the total budget increase. While the district will continue to seek opportunities to bring in additional funding, this is likely a short-term strategy. The school district's ability to generate additional revenue is currently hampered by size-constrained facilities. Within this budget on page 64, we highlight the expected revenue collection and expenditure budget for the 2019-2020 school year, and on the following pages highlight budgeted expenditures.

As is typical, a significant portion of the budget is driven by contractual and inflationary increases in current operations. This Maintenance of Effort accounts for 89% of the total budget increase.

The Board of Education's Proposed Budget for 2019-2020 is \$39,750,319, which represents a proposed increase of 3.78% over the current fiscal year.

The proposed budget is the result of two primary areas of focus:

	<u>Increase</u>	<u>% Impact</u>
M.O.E.	\$1,288,958	3.37%
L.I.F.T.	\$160,000	0.42%
Total	\$1,448,958	3.78%

The details of the 2019-2020 proposed budget are as follows:

Maintenance of Efforts (M.O.E.)

Salaries and Benefits <i>Driver: Health Insurance, Low Teacher Retirement, Staff for Security and Class Sizes</i>	\$1,123,147
Operations <i>Driver: Transportation, School Resource Officer</i>	\$352,255
Outside Tuition <i>Driver: Special Education & Magnet Outplacements</i>	\$48,820
Technology <i>Driver: 1:1 Chromebooks & Security</i>	\$8,974
Percentage of Total Increase	89%

Long-term Investment in the Future of our Town (L.I.F.T.)

1.0 FTE Assistant Principal (secondary) <i>Justification: Necessary expertise to improve upon social and emotional connections with students and families to enhance operational efficiency and safety and security</i>	\$155,000
Percentage of Total Increase	11%

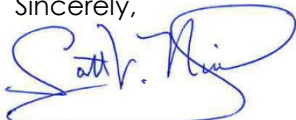

This budget represents the sincere efforts of Ellington's administration to provide for the educational needs of its student population present and future, while adhering to the Board of Education's directive, which recognizes the financial needs of this community.

Ellington is a unique Town. The collaboration between the school district team members, the Board of Education, Board of Selectmen and Board of Finance is unrivaled in the state. We are thankful for the collective efforts of these groups to put in place policies and procedures, which assist the long-term management of the district.

With a budget submission in January, ahead of any action on the state budget, the Superintendent's budget is a conservative submission based on what is known at the time. We continue as an administration to seek additional savings where possible, and when possible, have sought to pass those savings along to the Ellington taxpayer.

The Board of Education approved this budget unanimously at the January 31, 2019 meeting. We look forward to sharing discussing this budget with the Board of Finance at our March presentation.

Sincerely,

A handwritten signature in blue ink, appearing to read "Scott V. Nicol", with a large, stylized flourish underneath.

Dr. Scott V. Nicol

Executive Summary

Major Drivers

This budget represents a resourceful look at current operations, with targeted investments in specific strategic initiatives to support the long-term sustainability of high-level programs in the district. As is typical, the largest driver of the budget increases stems from Salaries and Benefits, Operations, and Outside Tuition. Our instructional budgets offset other increases this year, due to reduction in student medical needs and shifting of resources into other categories.

While these drivers represent the total increase, a significant portion is dedicated to providing a consistent level of service next year. The M.O.E. budget, as shown below, represents 89% of the total increase, with 11% coming from L.I.F.T. In order to achieve the new investments, the administration took a deep look at the current way business is done.

Maintenance of Effort vs. New Investment

Salaries and Benefits

The budget for 2019-2020 takes into account all required contractual obligations for General Wage Increases and step movement, when required. This year, there are several contractual raises built into the budget, as well as anticipated negotiations for one bargaining unit and all unaffiliated employees. Overall, the salary accounts are up 4.6%. This is in part because retirements among certified staff are at a historical low point. The increase in salaries is split between Certified Staff (i.e. teachers) and Administration and Support Staffing.

We anticipate health & dental insurance costs to be \$175,058 (3.55%) higher than 2018-2019. The increase in premiums is capped at 9.5% for our renewal with ConnectiCare. This year, we are pursuing a bidding process for health insurance costs which is aimed to bring costs down. As such, this budget holds a 7.75% increase in premiums. The increase in premiums is balanced by contractual language, which typically reduces the Board's share of costs each year. The Board, in collaboration with the Town, moved to Dental Self-Insurance in order to keep costs lower.

Outside Tuition

Outside Tuition is made up of several accounts including Magnet Schools, Special Education, Adult Education, and Vocational-Agricultural Education. In the 2018-2019 school year, outplacements were more transitory than in previous years. As such, we have incurred some costs for students without reaching the threshold for reimbursement through the "Excess Cost" grant.

We continue to anticipate additional outplacements in the Special Education account. These Ellington students require services beyond the capacity of Ellington staff and are transported to a specialized program that meets their needs. In these cases, the State formula indicates funding outplacement costs above a certain threshold through the "Excess Cost" grant. This covers costs in excess of 4.5 times Ellington's per pupil rate spending rate. However, state funds have historically funded less than the full formula requires. We conservatively budget 70% funding of this formulaic grant. Additional information is found on page 61.

The Board of Education, in collaboration with the Board of Finance, established an unexpended funds account to protect against unknown risk in this account. Our long-term strategy is to bring students back into district by establishing high leverage programs.

Technology & Operations

Operations includes the items which keep the schools running, including utilities, technology, maintenance supplies, and transportation. Utilities have been increased based on actual costs from previous years. Recently installed lighting projects will provide a small benefit for the 2019-2020 school year, but a more significant decrease is expected after the costs of the projects are paid in full.

The contract for transportation services includes a 7.5% increase for 2019-2020. In addition, we have additional needs at the pre-school level, which necessitated the addition of an additional bus in 2018-2019. This need directly ties to the number of students qualifying for special education services. The district is also working with First Student to examine all routes for efficiency.

Budget Analysis & Trends

Adopted Budgets

The administration has sought to be fiscally responsible in its budget proposals over the past few years, while balancing the needs of a growing student population. One effort the administration has focused on is the pursuit of additional funding sources.

The range of adopted budgets over the past nine years span from a low of 2.05% in 2011-2012, which immediately preceded the peak of 4.94% in 2012-2013. The next five years saw decreasing budget increases.

The Superintendent's budget represents our good faith effort to produce a budget, based on current knowledge, data, and constraints. The district administration continues to work on the budget past its submission to the Board. In past years, as the beneficiary of good trends in our medical claims, we were able to pass along savings in premium costs to the town. We will continue this practice this year, as we seek to bring down costs.

As the student population continues to increase, the district will need additional investment over time. The administration always seeks to realign positions to best serve the needs of the district, and can sometimes realign or reinvest in new positions through attrition. Application of this strategy is unique to the specific year and cannot be counted upon as a long-term approach to staffing needs.

Per Pupil Spending Over Time

Ellington's *growth and investment gap* is most clearly demonstrated in the per pupil spending over time. Over the 10 years from FY 2008-2017, Ellington consistently ranked among the lowest in the state for per pupil spending, ranging from 165-169 (of 169).

A portion of this differential is explained by shrinking student population in other districts and growth of student population in Ellington. In a recent study, Ellington ranked 144th in the state for per pupil growth from 2006-2016.¹ As shown in the graph below, per pupil expenditures in surrounding districts increased faster than Ellington over time. As Ellington continues to grow over time, requisite investment is needed to keep pace or close the growth and investment gap.

With student populations expected to grow over time, in context of perennial State budget issues, we identify this lagging growth in investment as a risk to the district. As more students enter the district and demographics change, we will need to invest more to meet the additional demand. Without additional long-term investment to close the gap, Ellington will eventually lose its competitive edge.

Health Insurance Premiums & Claims

The increasing rate of health insurance costs is an issue for districts across the state. The Ellington Public Schools have worked hard to keep costs down, and benefitted from a couple good years of claim history. Over the past three years, the Ellington Public Schools received increases well below overall trends in healthcare (0%, 0%, 5.2%, respectively). However, as shown in the graph below, our trend in the Medical Loss Ratio (MLR) —total claims as a proportion of total premium—increased to 98.9% in the prior fiscal year.

Over the past 5 years, the district holds an MLR of 88.5%. Longer term, the administration will explore moving from a fully-insured model to a self-insured model as a way to moderate costs over time. The district is also examining alternative models of insurance delivery as ways to reduce costs, however, executing these strategies are multi-year efforts that require long-term planning and commitment.

Source: ConnectiCare Claims Data Incurred Through September 2018, Paid through November 2018

Current claims in our Rolling-12 MLR have continued on a trend up, equaling 102.8% for claims incurred through September 2018. This is primarily due to an increase in high cost claimants over the past 12 months. Although the high cost claimants are pooled into a different group for reinsurance after \$150,000, we expect claims to continue higher than past reporting cycles.

An MLR over 100% would typically indicate a historically larger increase in premiums. However, due to the unique circumstances of our claims data, the district is working through its broker to put health insurance out to bid in order to get the best possible rate.

Revenue Generation

Over the past few years, the Ellington Public Schools entrepreneurial efforts yielded significant increases in revenue. The district generated this revenue through a variety of different strategies.

The varying sources of revenue and associated expenditures are highlighted in the Financial section of this budget document. Primary sources include the Open Choice Attendance grant and Special Education revenue due to increased programming. Such revenue growth has led to an additional \$1.2M in projected revenue (approximately 250% increase) and associated expenditures since the 2015-2016 fiscal year.

This revenue supports direct services provided to students, but also provides indirect benefits for Ellington students. As a result, we have been able to expand programs and services and meet unfunded mandates, without affecting the bottom line for the Ellington taxpayer. The administration will continue to seek new opportunities to expand services and generation of revenue, however one limitation is the current utilization rates of our facilities.

As of this budget submission, the Town of Ellington's Board of Selectmen passed a proposed ordinance to account for Special Education Revenue in a newly formed Special Revenue Account. This must still pass at a Town Meeting, tentatively schedule for February.

District Initiatives

This budget supports the work of District Improvement Plan (page 98) and the initiatives contained within. Please see summaries of the initiatives below.

Mastery-based Learning

"In a mastery-based learning environment, students are given multiple pathways to master critical content knowledge and skills. Students who are struggling to demonstrate mastery of a competency receive targeted individualized support and more time to learn and practice, as well as multiple opportunities to demonstrate their progress and mastery. Students who have mastered the competency can move on to a deeper learning task. This increases student engagement and benefits all learners across the continuum." (CSDE, 2015)

Equitable Opportunities

Ellington Public Schools is committed to working together to ensure that every student—regardless of gender, race, ethnicity, family wealth, zip code, or disability status—is prepared to succeed in lifelong learning and work beyond school.

Innovative Mindset

In Ellington, we continue to challenge the status quo in order to provide the best learning experiences for our students. We strive to always push the boundaries of what is typical, or the norm, in order to best meet the needs of all students.

Some examples of innovative practice in Ellington:

- Mindfulness in the Classroom
- District -wide *Hour of Code*
- Makerspaces at each school
- *Purposeful Play* in elementary classrooms
- Student-led conferences
- Multi-purpose classroom seating and workspaces
- Digital student portfolios

Personalized Learning

Personalized learning builds on the principles of Mastery-based learning and Equitable Opportunities while utilizing an Innovative Mindset to increase student engagement through more of the following:

- More student voice in curriculum
- More student choice in assignments and assessments
- Student control of pace and place of learning

Efficient Operations

Schools and departments are committed to providing high quality service through cost effective and efficient practices using a systems approach that emphasizes transparency and accountability.

Facilities Information

The Ellington Public Schools facilities team does an excellent job maintaining the buildings. The schools are in good condition, with renovations at each school within the past twenty years. However, with the original infrastructure constructed between 1949 and 1966, we must be vigilant about maintenance and continue to have legacy issues from construction during this period. The Board has prioritized a Facilities Study for the 2018-2019 fiscal year.

Ellington High School

47 Maple Street

Square Feet	149,531	Year Originally Built	1960	Year Last Renovated	2002
--------------------	---------	------------------------------	------	----------------------------	------

Immediate concerns: Water penetration and egress at gymnasium door near loading dock; air conditioning in large spaces

Long-term concerns: Design limitations for 21st century learning; water penetration of EFIS above auditorium; age of infrastructure (e.g. boilers, oil tank)

Ellington Middle School

46 Middle Butcher Road

Square Feet	83,021	Year Originally Built	1954	Year Last Renovated	1998
--------------------	--------	------------------------------	------	----------------------------	------

Immediate concerns: Air conditioning in gathering spaces (e.g. cafeteria, gymnasium)

Long-term concerns: Age of original infrastructure & updates (e.g. boiler pumps, VCT flooring)

Windermere School

2 Abbott Road

Square Feet	84,519	Year Originally Built	1966	Year Last Renovated	2014 – targeted improvements
--------------------	--------	------------------------------	------	----------------------------	------------------------------

Immediate concerns: Roof integrity over main office; continued growth of student population; bus lanes in morning and afternoon

Long-term concerns: Legacy VAT tile in original wings of building; single pane windows in original wings; boiler efficiency

Center School

49 Main Street

Square Feet 55,847 **Year Originally Built** 1949 **Year Last Renovated** 2002

Immediate concerns: Air conditioning in cafeteria

Long-term concerns: Enough room for classrooms and currently housed Central Office staff; age of infrastructure (e.g. boilers, oil tank)

Crystal Lake School

59 South Road

Square Feet 54,395 **Year Originally Built** 1957 **Year Last Renovated** 2014

Immediate concerns: Housing pre-K program; Closing open state grant; minor construction related issues

Long-term concerns: Addition of third well for water usage

Central Administration

47 Main Street

Square Feet 2,500 **Year Originally Built** 1972 **Year Last Renovated** 1998

Immediate concerns: Ability to house Central Office staff (e.g. technology); storage

Long-term concerns: Functionality of space for professional learning and Board of Education meetings

Enrollment Study

The ongoing narrative in Connecticut is towards declining enrollment²; Ellington's experience is the opposite. The Ellington Public Schools are experiencing a period of growth that is projected to continue over the next 10 years. On the higher-side projected growth could be as high as 2% per year, or 550 students over 10 years. This enrollment growth puts pressure on the school district fiscally and operationally.

Over the next decade, the struggle of our district will be to balance current, high quality services while maintaining reasonable increases to current operational costs. The growth currently taxes the system's facility infrastructure; additional classroom space is already at a premium.

Further examination of this trend will happen concurrently with the budget process, as the district and community continue to examine potential options to address current limitations of our facilities to handle projected growth.

Board of Education Ellington, Connecticut

March 30, 1984

Dear Parent(s):

On December 7, 1983, the Ellington Board of Education voted to create a special board committee, called the Redistricting Committee, to which it appointed members Albert Wachsman and Dale Roberson. The committee was given the charge of determining whether or not enrollment trends, present and projected, might inhibit the Ellington Public School System's attempts to provide high quality education to all its children. After a period of study, the committee identified certain problems existing within the school system which appear to present barriers to satisfying not only the Board's interest in quality and equal education but also that of the State of Connecticut (State Statutes 10-4a; 10-15c; 10-220).

The major barrier identified that should be addressed is the present low enrollment and the probability of continued enrollment decline at Crystal Lake School. This situation appears to be reducing program flexibility and jeopardizes our ability to offer equal educational opportunities in all our schools.

In searching for a solution to this problem, the committee investigated a number of redistricting plans that would adjust enrollment in the three elementary schools bringing them into better alignment with the educational programs offered. One area under strong consideration for redistricting children to Crystal Lake School in September 1984, is Mountain Road, Mountain Street, Snipsic Lake Road and surrounding streets.

The Redistricting Committee, before finalizing its recommendation(s) to the Board of Education (scheduled for April 25, 1984), wishes to extend an opportunity to you to share your concerns and ideas for or against this plan. We cordially invite you to an open hearing on this issue on Monday, April 9, 1984 at 7:30 p.m. in the School Administration Building on Main Street. Please make every effort to come and discuss your feelings about this.

Sincerely,

Albert Wachsman
Ellington Board of Education

Dale Roberson
Ellington Board of Education

Elementary Class Size Projections

Two sets of projections performed by outside vendors show an increased enrollment in the district, focused at the elementary level in the near-term.

Enrollment in the current kindergarten class (190 enrollment) is 8.8% larger than the average of the past five years. The current first grade cohort is even larger, 224 students, representing one of the largest cohorts to move through the Ellington Public Schools.

The projections used within this budget use historical cohort survival rates and are more conservative than either study produced by ERM or NESDEC. Moving to the ERM or NESDEC models would quickly push the average elementary class size above 23 students and require additional staff.

In response, the district is once again is requesting one unassigned elementary teacher, however has identified Choice funding as the source. Last year, to mitigate class sizes of 24 in Kindergarten, the unassigned elementary teacher was filled at Center School.

This position acts as an insurance policy if growth is higher at Grade 1 than estimated, or if another larger Kindergarten cohort emerges.

Budget Process

Managing the budget is a process that impacts everyone in the district. The efforts to plan, implement, execute, and monitor the budget cut across the district. At certain times throughout the year, staff will be working on three different budget years. Below is a brief summary of the work done on the budget.

Summer

- At the start of the fiscal year, July 1st, the new budget goes into effect.
- The Business Services department spends the summer setting up for the start of the school year.
- They also work diligently to process any invoices and get final numbers for the previous year. This culminates in the filing of the EFS to SDE by September 1st.
- Early conversations about the following year's budget are held.

Fall

- The start of the school year brings additional work as payroll numbers increase and the schools continue purchasing supplies and other materials.
- The Board of Education begins planning for the next year by setting the Budget Calendar and Budget Guidelines (below).
- The administration begins the process of budget development, by asking staff members for budget requests. Budget meetings are held to discuss requests.

Winter

- The Superintendent makes his proposal to the Board of Education.
- The Board of Education reviews the Superintendent's proposal and approves a budget during the January meeting.

Spring

- The Board of Finance reviews the Board of Education's recommended budget, conducting hearings. The Board of Education budget accounts for roughly 2/3rds of the total Town of Ellington Budget.
- In April the Board of Finance recommends the full Town budget go to Town Meeting.
- In May, at the Town Meeting, the members of the public send the budget to referendum. The budget referendum is held.
- The Business Services department plans for the end of the school year, working to closeout open purchase orders and contracts.

Budget Calendar

October 22 – November 16	Administrators Prepare Budget Documents with Designated Personnel
November 16	Closing Date for Submission of Electronic Budget Forms
November 26 – December 21	Superintendent Reviews Budgets with Administrators
November 28	Board of Education Approval of Capital Budget
December 22 – January 25	Superintendent Prepares Proposed Budget for Presentation to the Board of Education
January 26	Board of Education/Administrators Saturday Session
January 30	Board of Education Continues Budget Review
February 6	Board of Education Approves Proposed 2019-2020 Budget for Submission to the Town
January/February TBD	Board of Selectmen Review of Capital Budgets
February 15	Board of Education Submits Proposed 2019-2020 Budget to the Board of Finance
February 15	Board of Education Budget Documents Published on District Website
February TBD	Board of Finance Review of Capital Budgets
March TBD	Board of Finance Budget Hearings
March TBD	Board of Finance Review of Board of Education Budget
April 9	Public Hearing, EHS Auditorium 8:00 PM
April TBD	Board of Finance Budget Deliberations
May 14	Annual Town Budget Meeting, EHS Auditorium 8:00 PM

Board of Education Budget Guidelines

At its regularly scheduled meeting on October 24, 2018 the Ellington Board of Education unanimously approved the following 2019-2020 Budget Guidelines as recommended by the Finance Committee to give direction and guidance to the administration and staff in the budget development process. The Board of Education is always vigilant in working to provide an excellent academic program for all students in the most cost effective manner possible.

- 1) **Five Year Capital Improvement Plan** – The Operations Committee of the Board of Education will make its annual recommendation for the Capital Improvement needs of the district. The plan should contain items found during the Facilities Study capital project. Authorization to submit the Five-Year Capital Plan to the town will be provided by the Board of Education no later than its November 2018 meeting.
- 2) **Salaries** – All salary accounts must reflect the implementation of negotiated contracts. Appropriate funds for contracts to be negotiated will be included. The Finance Committee must review non-represented personnel whose salary agreements may expire at the end of the current fiscal year. All adjustments for known or anticipated retirements and vacancies are to be included. Costs associated with any requests for additional time or new positions must be clearly delineated as to their impact upon the budget. The impact of enrollment projections upon staffing must be clearly delineated.
- 3) **Health Insurance** – These accounts must reflect the impact of all negotiated contracts. They must also include appropriate funds for any contracts yet to be negotiated. Data related to trend and plan usage will be provided by the Board's insurance representative.
- 4) **Transportation** – The contract contains a 7.5% cost increase for 2019-2020. The administration's budget should account for this increase, but also find ways to optimize the bus routes to limit the impact of this increase.
- 5) **Utilities** – With the advantageous price of natural gas and propane gas, all schools will be using gas as their primary heating source. The district has entered into a consortium and has locked in electricity rates through December 2019. Additionally, pricing of completed solar and lighting projects should be included in the budget proposal.
- 6) **District Improvement Plans** – The administration is directed to include appropriate funding for curriculum and professional development to support the areas of focus and the strategies contained in the district improvement plans.
- 7) **Technology** – The administration is directed to include funding to reflect the Board's support of the district's 1:1 initiative. The phased in purchasing of Chromebooks for grades 1 through 12 should continue in the 2019-2020 fiscal year. All other technology purchases should be tied to the District Technology Plan.

- 8) **Equipment & Supplies** – The operating budget should contain continued funding for equipment and supplies, across all disciplines, to appropriately support curricular and instructional needs.
- 9) **Special Services** – The administration will continue to meet the district's legal obligations and is encouraged to continue to provide quality services and programs for our students.
- 10) **Magnet Schools** – The Board of Education has no budgetary control over this issue due to state legislation. This account is currently underfunded and the administration is directed to address this shortfall.
- 11) **Staffing** – The administration is directed to closely monitor student enrollment and to provide staffing recommendations that ensure appropriate class size as well as to meet the various program needs of all students at all levels within the constraints of resources provided. A full analysis of the ideal staffing model, including teaching and administrative positions, shall be conducted as part of the budget process. The budget should clearly delineate any staffing related to the district improvement plans.
- 12) **Estimated State-Aid** – The administration's proposed budget should reflect the nature of any projected changes in state-aid from the 2018-2019 fiscal year, including any modifications to Educational Cost Sharing formula enacted by the legislature in the previous biennium budget.
- 13) **Revenues** – The budget should take into account proposed changes to special education revenue accounting practices. Planning around such revenues should be clearly delineated in the budget. The total such revenues and associated expenditures should be a conservative estimation based on the variable nature of the funding source.

Account Explanation

The structure of the chart of accounts is organized in a way that allows for necessary reporting to the state and federal governments. Each account includes 19 digits, broken up into seven categories.

The structure is shown in the color-coded table below. The full accounting structure with descriptors are laid out in the following pages.

Ledger X	Fund XX	Facility XX	Program XX	Function XXXX	Object XXX	Index XXXXX
--------------------	-------------------	-----------------------	----------------------	-------------------------	----------------------	-----------------------

To simplify for everyday processing, each account has an Index number, a unique 5-digit shorthand that is used to quickly lookup account information and prevent possible duplication of account numbers.

Here is one full example of an account within our accounting structure:

Regular Education Transportation
1-00-99-92-2550-331-99150

Although there was discussion at the state level of each district moving to a Universal Chart of Accounts, this initiative stalled and is currently on hold. With changes coming to the reporting requirements of the state with the implementation of the Educational Financial System, the Business Services team is examining if additional accounts or changes to the current structure are required.

For the purposes of reading this budget, the accounting structure used is the current version. The budget as shown in the crosswalks in the Financial section below is organized by object and function. Salaries are broken down by object and program.

PURCHASED / CONTRACTED SERVICES

300-319 Professional Services: Amounts paid for personnel not on payroll (i.e. auditors, lawyers, in-service presenters, physicians, psychologists, etc.). Teachers who are employed to provide non-teaching services, i.e. curriculum work, program development, etc.

321, 327, 328 Public Utilities: Payments for services such as propane, water, and electricity.

- 323, 326, 329 Repairs & Maintenance: Expenditures for contracted services covering the upkeep of grounds, buildings, and equipment.
- 324 Property Insurance: Expenditures for insurance for any type property owned or leased.
- 325 Rentals: Leasing or renting on both long and short term basis. Includes lease-purchase agreements.
- 331, 334, 335, 337 Transportation: All costs relating to transporting students.
- 332, 333, 338, 339 Travel/Conferences: Costs for personnel who by the nature of their work must travel between buildings. Also included in these objects are costs for administrative, faculty, and support staff conferences.
- 340 Communications: Costs for telephone services.
- 341 Townwide Maintenance: Costs related to maintaining buildings & grounds.
- 360 Advertising & Printing: Expenditures for printed announcements in professional periodicals and newspapers, advertising for such purposes as personnel recruitment and printing of student medical forms, cumulative folders, student handbooks, and other similar types of materials.
- 370 Tuition: Reimbursement to other educational agencies for services rendered to students residing in our district.

SUPPLIES

- 410 Security: Expenditures related to security systemwide.
- 411 Administrative: Expenditures for general office supplies.
- 412 Program: Consumable materials unique to the operation of a program. This includes workbooks.
- 413 Special Education: Consumable materials unique to a special education program. Functions 1200-1290.
- 415 Basic/General: General supplies such as paper, pencils, crayons, glue, etc. used to carry on the day to day operations of a program.
- 416, 417 Custodial: Supplies used for maintenance of a facility such as wax, cleaners, paper supplies, brushes, etc.

- 418 Heating Fuel: Expenditures for heating fuel for all buildings.
- 420 Textbooks: Prescribed books which are purchased for pupils or groups of pupils.
- 430 Library/Media: All library / media supplies including books, periodicals, and audio-visual software.

CAPITAL OUTLAY

- 543 Equipment: Purchase of new and replacement equipment systemwide.

OTHER OBJECTS

- 640 Dues & Fees: Expenditures or assessments for memberships in professional or other organizations or associations.
Does not include individual memberships
- 700 Transfer Account

Systemwide Budgets Q & A

Q: One of the goals of the district is to continually enhance safety and security. How is this reflected in the budget?

A: The district continue to commit to making operations more efficient operations. Within this budget, we are incorporating some of the changes made after the budget was approved for 2018-2019. This includes additional costs for the School Resource Officer and new School Security Officer position.

Q: In Student Services, there is a large decrease overall. Why?

A: This year, we were able to take advantage of a couple trends to significantly reduce the Physically Handicapped purchased services account. Some of the decrease is accounted for by a shift in resources, moving from an outsourced model, to in-house with our Occupational Therapist. This model provides additional services at a cost neutral price point.

Q: The Systemwide budget contains a large increase. Why?

A: This budget is made up of many different accounts. The increase in these accounts make up 45% of the total budget increase. There are several drivers this year: health insurance, transportation, benefits & retirement, utilities, and regular education tuition.

Transportation is related to both the contractual increase with First Student for bus rates and an increased need for Student Services routes, accounting for roughly 1/3rd of the total Systemwide increase. Regular education tuition is up over \$25,000 due to anticipated VOAG and Magnet students. However, it should be noted that there is a 1:1 offset in the Open Choice grant for Magnet Tuition.

Q: There is a large number in the Severance and Adjustment account. Why?

A: The increase is due to pending negotiations with bargaining units and unaffiliated positions for next year. The anticipated increase for those units is held in the Adjustment account and is not reflected in their salaries accounts.

Q: The largest overall increase seems to be in Salaries. Are you adding additional positions?

A: This budget starts by taking into account all of the contractually obligated increases. We also reduce the budget with known factors, such as retirements. We have a historically low number of certified retirements, which accounts for some of the increase.

This budget also takes into additional positions that were added due to need, including a Special Education teacher and a Kindergarten teacher, both at Center School, a Special Education Supervisor. The only new position proposed is a full time Assistant Principal for the Middle School and High School (1.0 FTE net) to ensure safety, security through additional building coverage and "on the ground" relationship building with students and staff.

7-12 Schools Budget Q & A

Q: Are there any 2017-18 initiatives at the EMS and EHS that have budget implications?

A: EMS and EHS continue to invest in STEM education. At the High School, new courses in Computer science require ongoing programmatic supplies (an increase of \$5,627). At the Middle School, new Textbooks account for an \$8,466 increase in the Math accounts.

Further, at EHS, there is a new investment in Special Programming, which includes item such as LINK Crew for 8th to 9th transition and Advisory programming.

Q: Interscholastic accounts are up at Ellington High School. Why?

A: Salary accounts for interscholastics rise each year based on contractual increases to coaching stipends. At EHS, this accounts for roughly 3/4th of their total increase at the school.

Q: What are the other drivers of the budget increase?

A: Activities at the Middle School are up this year, primarily due to an adjustment in the cost of advisorships.

Q: Did you cut back on any accounts?

A: A look at the Requested Items Not Included in the Budget on page 89 shows a number of accounts which were in the Administrator's requests, but are not in the Superintendent's proposed budget. Further adjustments are made on a yearly basis where possible (e.g. Math at EHS shifted to Computer Science).

Elementary Schools Budget Q & A

Q. What are the main drivers for the three elementary school budget requests for 2018-2019?

A: Elementary budgets are fairly flat this year. Some of the main requests (Physical Education supplies & English textbooks) were removed for grant pre-purchase (noted on page 90).

Q: What are some of the other programs this budget supports?

A: While the budgets are on the whole flat, they support a great deal of programs for students, including:

- Development of Whole Child approaches that touch on social & emotional curriculum, yoga & mindfulness, and behavioral supports.
- Sustained expansion of the elementary music, chorus and band programs across the three schools.
- Changes to the science and social studies curricula to align with the rigorous Next Generation Science Standards and CT State Social Studies Standards.
- Funding for innovative practices such as the Maker Space to provide opportunities for students in engineering and other creative practices.
- Materials for faculty study groups to advance the district four areas of focus.

Staffing Requests

Proposed Staffing Requests

Assistant Principal at Ellington High School & Ellington Middle School (1 position)

An increase for additional administrative support (Assistant Principal) has been requested in previous years. Administrative tasks (teacher evaluation, PPT's, 504 meetings, student discipline, etc.) at both the middle and high school continue to increase precipitously. The number of PPT's has risen approximately 20% over the course of a five year period. This translates to more than 130 hours of extra meetings per year for the administration. By moving to a model where there can be a full time Assistant Principal at both the Middle School and High School, we can increase coverage of the building, where administrators are allowed time to make connections with students, lead instructional efforts with teachers, and build towards a greater community within the buildings.

Unassigned Elementary Teacher (Choice Funds)

Last year, the increased student population necessitated the hiring of an additional teacher at Center School. Despite mitigation by the school enrollment policy, we did see other sections across the district spike in enrollment. With growing enrollment across the district, the unassigned elementary teacher is an insurance policy against unplanned spikes in enrollment that occur during the summer.

Other positions included in Maintenance of Effort:

Following the approval of the budget by the Board of Education, the district sought additional Board approval to add the following positions. These positions were found in one-time savings for revenue for the 2018-2019 fiscal year. However, for the 2019-2020 school year, line items specific to these requests need to be increased.

- School Security Officer
- School Resource Officer
- Special Education Supervisor
- Special Education Teacher – Center School (Special Revenue Account)

Requested Staff Not Included in the Proposed Budget

2019-2024 Capital Budget Plan

Next year's focus is ensuring the district's cafeterias are climate controlled. These areas are used throughout the school year and during the summer. Further, they serve as main areas during the use as shelters at the Middle and High School. The plan was approved by the Board of Education at the November 28, 2018 meeting.

Location	Funding Source	Priority #	2019-2020	2020-2021	2021-2022	2022-2023	2023-2024	5-Year Total
Systemwide

Superintendent's Goals 2018-2019

VISION

Ellington Public Schools grows exceptional learners and leaders who are courageous, reflective, and contributing citizens of the world.

MISSION

Ellington Public Schools creates a culture of learning that challenges and inspires all students on their personalized educational journey.

AREAS OF FOCUS

EQUITY

INNOVATION

EFFICIENT OPERATIONS

GOALS

- I. Co-create aligned instructional leadership at the district and school levels
 - a) Increase mindfulness and wellness practices in all schools to enhance students' social and emotional learning.
 - b) Ensure equitable and personalized learning opportunities to enhance staff and students' talents.
 - c) Co-create an environment that supports innovative practices.
 - d) Increase Board of Education's collaboration with administration and teachers to improve district improvement planning and accountability processes, including student achievement.

- II. Develop school district entry points for parents and community leaders
 - a) Develop processes and promote opportunities through the EduInnovate with the four areas of focus.
 - b) Conduct a comprehensive facilities study to ensure a wide-range of community input and support resulting in a long-term plan for consideration at a town referendum.
 - c) Enhance the Board of Education's relationship with the Board of Finance and Board of Selectman through improved transparent processes.
 - d) Foster relationships with parents through comprehensive principal search process for Center and Windermere Schools.
 - e) Execute progressive communication strategies to parents and community leaders primarily via video communication.

- III. Enhance efficient leadership of district and school level operations and finances
 - a) Refine budget process to allow for themed and transparent communication.
 - b) Enhance safety and security of schools in particular by ensuring readiness for an active shooter situation.
 - c) Ensure a successful transition from self-operation to Whitson's food service program.
 - d) Continue to identify, streamline, and modernize internal and external operational processes.

Ellington Public Schools District Improvement Plan 2018-2019

Ellington Public Schools District Improvement Plan 2018-2019

Theory of Action: *If we focus our efforts on providing personalized learning, equitable opportunities, mastery based learning, and an innovative mindset, Ellington Public Schools will continue to grow exceptional learners and leaders who are courageous, reflective, and contributing citizens of the world.*

How will we measure our progress?

- District and school student outcome goals
- School based data points (i.e. attendance, office referrals, climate surveys)

Student Outcome Goals	3 Year Average (2015-16 through 2017-2018)	2020 Target
Grades 3-8 SBAC Performance in Literacy % meeting/ exceeding expectations (level 3 and 4 combined)	71.1%	80%
Grades 3-8 SBAC Performance in Math % meeting/ exceeding expectations (level 3 and 4 combined)	62.5%	75%
SAT School Day ELA meeting/exceeding expectations	76.9%	80%
SAT School Day Math meeting/exceeding expectations	50.7%	55%

Equity

Equity			
	Actions/Strategies	Timeline	Person(s) Responsible
Mastery Based Learning	1. Develop and publish K-12 “Bottom Lines” for all core academic subject areas that are aligned to key principles of MBL	Ongoing	Curriculum Supervisors, Teachers, Assist. Supt.
	2. Mastery Based Learning Task Force will be publishing a webpage that houses all MBL initiative updates and communications including videos and other multimedia resources that clearly discuss the work of the Task Force	Fall 2018	Task Force Co-Chairs, Asst. Supt.
	3. Provide professional development around aligning grading practices to core MBL principles	District PD Days and Elementary Grade Level PD meetings	Curriculum Supervisors, Teachers, Assist. Supt.
	4. Increase teacher effectiveness of student feedback across all schools	Ongoing	Curriculum Supervisors, Building Admin, Teachers
	Actions/Strategies	Timeline	Person(s) Responsible
Equitable Opportunities	1. Continue to provide professional development for heterogeneous grouping and differentiated instruction	District PD Days, Faculty Meetings, and Elementary Grade Level Meetings	Curriculum Supervisors, Teachers, Building Admin., Assist. Supt.
	2. Identify and discuss next steps for the changing demographics for Ellington schools	Ongoing	CO Admin Team, Building Admin
	3. Extended transportation services to provide equal access to all school/district events	Ongoing	CO Admin Team
	4. Professional development on implicit bias	Ongoing	CO Admin Team

Equitable Opportunities (cont'd)	5. Continue to support teacher learning and implementation of social justice curriculum	Ongoing	Curriculum Supervisors, Building Admin, Asst. Supt.
	6. Continued professional learning around co-teaching strategies	Ongoing	Building Admin, Curriculum Supervisors, Special Services Admin
	7. Examine strategies for recruitment of girls in STEM programs	Ongoing	STEM Curriculum Supervisor
	8. Continue to examine paraprofessional roles and responsibilities and their impact on student access to Tiered Instruction	Ongoing	Special Education Admin, Building Admin, CO Admin Team
	9. Reduce the number of students accessing education in a restrictive out-of-district placement by 25%	Ongoing	Director of Special Services
	10. Increase students with special needs participation in reading and math online practice assessments prior to State testing	Ongoing	Curriculum Supervisors, Building Admin, Assistant Supt., Director of Special Services
Innovation			
Personalized Learning	Actions/Strategies	Timeline	Person(s) Responsible
	1. Clearly articulated process for defining and using meaningful data across all grade levels and content areas	Ongoing	Data Planning Group, Building Admin, IT Director, Asst. Supt.

Personalized Learning (cont'd)	2. Explore student data system platforms that better allow teachers to know the individual needs of all students	Ongoing	Data Planning Group, IT Director, Asst. Supt.
	3. Clearly articulated process for academic intervention and progress monitoring	School and District Data Team Meetings	Building Admin and Teachers
	4. Coordinated K-12 NGSS science professional development and curriculum revisions	District and Staff PD Days	Science Curriculum Supervisor
	5. Professional development for teachers around small group instruction and assessments that allow for personalization	District PD Days	Curriculum Supervisors
	6. Coordinated peer based approach for teachers to implement current technology integration expectations (i.e. <i>Tech Champs</i> talent incubator/tech leads)	District PD Days, Faculty Meetings, Elementary Grade Level Meetings	Technology Integrationists
Innovative Mindset	Actions/Strategies	Timeline	Person(s) Responsible
	1. Revise and modify teacher evaluation and professional development systems system to better support and align with the vision of an innovative mindset	Ongoing	Professional Development and Evaluation Committee (PDEC)
	2. Continue to increase student and staff mindfulness and wellness practices across the district	Ongoing	Building Admin and Teachers
	3. Case managers of students with special needs participating in the Choice Program will schedule and attend one home visit prior to December 20, 2018	Ongoing	Case Managers and Special Services Admin
	4. Continue to develop opportunities for STEM programming (ex/ Girls and Code)	Ongoing	STEM Curriculum Supervisor

Innovative Mindset	5. District assessment and recommendations for how to maximize our involvement in networks such as League of Innovative Schools, NGSX and Teachers College which support innovation educational practices	Ongoing	CO Admin Team, Building Admin
	6. Continue and enhance a culture of feedback throughout all schools and departments	Ongoing	All Staff
	7. Align hiring process to support Ellington Public Schools' Vision/Mission as well as district/ school improvement plans	Ongoing	CO Admin Team, Building Admin, Curriculum Supervisors
	8. Review organizational chart and consider making updates that better support district and school improvement efforts	February 2019	CO Admin Team
Efficient Operations			
Actions/Strategies		Timeline	Person(s) Responsible
	1. Establish Electronic Forms working group to find and implement a technology solution that makes current manual and paper processes more efficient	Ongoing	IT Director Lead, CO Admin Team
	2. Coordinated and aligned PD delivery system that clearly connects district PD days, administrative council, grade level/department meetings, Teachers College, NGSX training, various task forces (MBL, NGSS, etc) and faculty meetings that results in alignment between written curriculum, assessments, and instruction	Ongoing	Asst. Supt., Curriculum Supervisors, PDEC

	3. Aligned and coordinated communication systems (website, social media, and internal communications)	Ongoing	CO Admin Team
	4. Develop new philosophy within Safety & Security Plan and train 100% of staff and students by the end of the 2018-2019 school year	Ongoing	Director of Fin/Ops, District Safety Committee
	5. Launch modified budget development process in October to support the district's mission/vision and district/school improvement plans	Ongoing	CO Admin Team
	6. All Annual and Triennial Review dates will be met with 100% goal	Ongoing	Director of Special Services
	7. Streamline online registration process and decision making	Ongoing	IT Director Lead, CO Admin Team
	8. Continue to institute a lean culture supported by professional learning and cross-training of staff	Ongoing	Director of Fin/Ops Lead, CO Admin Team
	9. Continue work to improve financial & accounting processes, aligned with best practices	Budget Timeline	Director of Fin/Ops
	10. Increase number of meals served for breakfast and lunch by 10%, with focus on increasing NSLP participation	Ongoing	Director of Fin/Ops
	11. By January, produce a long-term facilities study for the district, developed with significant input from community members and stakeholders	Facility Study Timeline	Director of Fin/Ops, CO Admin Team
