

April 2023
2023 Best Communities for Music Education

Ellington Public Schools is proud to share this national recognition with the Ellington Community for the 5th year in a row! The Best Communities for Music Education (BCME) Award is a program of The NAMM Foundation. 830 districts across the nation have been honored for their commitment to music education. In addition to providing rigorous academics, the Ellington Public Schools ensures access to music education for all students. In line with our core values of innovation, collaboration, and creativity, this distinction cannot be achieved without the support of our teachers, staff, administration, and families. Thank you for your support!

More information about the program can be found [HERE](#).
