Dear Ellington Family -

This Memorial Day Weekend, we honor those who served and died in our armed forces protecting our way of life—a representative democracy. It is the citizens who elect our government officials. It is the citizens who work together when those elected government officials mislead the people to serve their own interests. This has been, and will continue to be the case in the Town of Ellington—as the government works for the people.

Those citizens—in Ellington and elsewhere—who passed away serving in the military are to be remembered for the free-will conditions of a representative democracy they helped create and maintain.

The Ellington Public Schools espouse this sentiment through the Seeds of Civility by creating a culture of critical thinking and cooperation. Now more than ever, Ellington High School students demonstrate 'How Ellington Does Culture' by Suiting Up and Standing Up—Go Knights!

Education in Ellington presents—[How Ellington Does Culture](#)

A big thank you to EHS Assistant Principal and Ellington resident Brandon Hubrins for his dedication to our youth in continuing the traditions of Ellington and our functioning representative democracy.

Happy Memorial Day Weekend,

Dr. Scott Nicol
Superintendent of Schools
